RE: LEMON BIMMER PROJECT

Dear Terry:

I wanted to thank you again for the opportunity to drive the Lemon Bimmer at the Motor Sport Ranch in April.

While enjoying Terry's hospitality in the paddock, Ahmad gave me a close-up look at the Lemon yellow themed Bimmer that he was driving for Terry at Motor Sport Ranch and will be their entry into the 24 hours of Lemons. Just reading the stickers was more entertaining than an hour on Comedy Central. Ahmad suggested that we could drive an endurance race and I jumped at the opportunity. The E30 Lemon Bimmer was a different driving experience than my E36 M31 Stock car. The E30 is a lightweight momentum car which was fabricated at Terry Sayther Automotive starting with a \$400.00 junk yard car and prepared with salvaged parts. I enjoyed *throwing* the Lemon Bimmer coming out of the Rattlesnake Complex at Motor Sport Ranch. It was sort of like making lemonade at my father's pharmacy soda fountain. A little hard work, but the results were sweet.

Thanks Terry for the chance to be a Pirate for a day.

I look forward to seeing you at a race soon. Congratulations on your win at Hallett in your podium at Houston.

Sincerely,

J. Lynn Cochran
